

"It is about more than selling Toys."

Toys In Box Times

Wellesley MA

VOL.VII...No.10

OCTOBER 2020

ZERO DOLLARS

HELLO, I'M TOYSINBOX TIMES!

I am an Austin-originated newspaper sold at Toysinbox 3D Printing Store, Toysinbox.com, Toysinbox3DPrinting.com and Toysinbox events at zero dollars. I absolutely adore toys, crafts, books, fun activities, and ENTREPRENEURSHIP!

New 3D Printing Book Kit

for Holiday Season

Already feeling festive! We're so excited and just can't hide it! Five super-cute little friends are coming to Toysinbox's 3D printing world. Their special force is creating jolly. As of now, we can only reveal this pixelated image of the group. Can you guess what they are?

This 3D printing book kit is a great way to treat yourself to a little creative 3D printing fun this fall, AND they are a great gift for that curious and techie someone on your holiday list. Digital release coming soon!

Boo-tiful Charm

Happy Halloween! We made some ghost charms, and they are perfect for necklace pendants. Very cute and noticeable. Simply bootiful!

Clay Cutters

Our customer designed these clay cutters with Fusion 360 and had us 3D print them for her. We got this thank-you photo and were impressed by the polymer clay cutouts made from the 3D printed cutters. If you are interested in her design work, we are happy to connect you with the designer.

Upcycle Glass Juice Bottle

Everyone loves Trader Joe's 32 oz. grape juice. So do we! We also love the stylish glass bottle that comes with the juice. No surprise, we ended up having quite a few bottles left in our hands.

We removed the labels from the finished juice bottles and used them to store both warm and cold drinks. However, as weather gets chilly, we were thinking of using some of the bottles for hot beverages like tea. One Toysinbox associate came up with an idea and designed a stylish handle for the juice bottle. Now we can safely pour our hot tea into cups without risking burning our hands.

Also, the handle grip is very comfortable, and it holds the tag in place so the tea bag won't fall into the hot water. It's worth mentioning that the handle is like a lever and makes pouring very easy. Nice, right?

3D Printing Zoom Class

With Local Middle Schoolers

Our 3D printing enrichment classes are still going on! Can you believe it? A local organization booked our on-line class for their middle schoolers, and we've finished 3 lessons so far. Both sides enjoyed the class - so far so good! We are so proud of them, and truly appreciate their patience, effort, ability to adjust, and brightness.
