

## HELLO, I'M TOYSINBOX TIMES!

I am an Austin-originated newspaper sold at Toysinbox 3D Printing Store, Toysinbox.com, Toysinbox3DPrinting.com and Toysinbox events at zero dollars. I absolutely adore toys, crafts, books, fun activities, and ENTREPRENEURSHIP!

### Two STL Patterns Free Share

[3D printing meets embroidery] 5-pattern package 2023 is done! It includes a plant and pot, doll, lily pad, whale, and Plant in a vase. We will free share two of the five STLs via our Facebook @Toysinbox3DPrinting today noon time for 48 hours. Please comment on the post with your top two choices. We will select the two patterns most wanted for free share. As of March 31, the most voted STL pattern is Lily pad. And Plant in a pot, Plant in a vase, and whale each got the same votes. Surely the missing pictures of the finished Plant in a vase and whale contributed to this tie.

How to participate: Follow or like us on Facebook (if you already did, like this

post), and email info@toysinbox.com for the top-voted two STL patterns so we can email back with the STLs.

### Embroidery Assistance for Free 3D Printing Class

We need adult helpers to add threads to our 3D printed pattern discs. The main perk is you bring your child to our 3D printing class for free! The 2-hour course is valued at \$50. While you're helping us and getting some embroidery fun, your child is exploring the 3D printing world with us. Also, to sweeten the deal, you can 3D print a name keychain to take home. Please email info@toysinbox.com to sign up. Open until filled. Time: June 4th, 1 pm-3 pm (short break time included) Student Age Group: Grade 2 and up.

### Making Book Character Bead

How about making some beads out of your favorite book characters? Here

is our character bead. The size is about 25mm, and the hole is about 2mm. We free-shared this bead STL on April 14 via our Facebook page. The printing time is less than 10 mins; surely you can make quite a few in no time.
