FUN THINGS TO DO By TOYSINBOX PEOPLE

Lithophane

A lithophane is a 3D image that can be seen clearly when backlit. 3D printing technology makes creating your own lithophane an easy process, especially with an easy to use free lithophane image generator from <http://3dp.rocks/lithophane/>.

We made a kitty lithophane. The result is great. The first picture shows the 3D print we made. The second picture shows the 3D print when backlit. Now, you can clearly see the kitty. Isn't it cute? Enjoy!
