JANUARY 2020

ZERO DOLLARS

HELLO, I'M TOYSINBOX TIMES!

I am an Austin-originated newspaper sold at Toysinbox 3D Printing Store, Toysinbox.com and Toysinbox events at zero dollars. I absolutely adore toys, crafts, books, fun activities, and ENTREPRENEURSHIP!

My passion is broadcasting everything about Toysinbox and business adventures. Each month, I will report exciting news at Toysinbox, interesting things to do for kids, and enlightening business adventures. So be sure to read the fabulous articles in this issue.

HAPPY 2020

By TOYSINBOX PEOPLE

***** 2019 *****

We still can't believe 2019 is already over! We were so busy with different 3D printing tasks; from hosting big corporate 3D printing events, to initiating and executing our first national 3D printing tour, to new custom 3D printing and modeling jobs, and to a new 3D modeling and 3D printing book kit; just to name a few of our highest highs. And now, we're rushing into 2020! What's next?

***** 2020 *****

We're starting this new year with much already scheduled. Here are a few that we want to share with you.

1. Mini store tours

This is a recently developed program that was inspired by people's questions, like "what's inside the store?", "what's in the back?", etc. This program aims to offer the public a free opportunity to peek inside our store. Advance registration at eventbrite.com is required.

2. New 3D printing program (max 25 people/session)

This program is called "3D Printing Your Name Keychain". Students will 3D print their name keychains in two colors on-site and take it home right after the event. There's no 3D modeling work involved, so this program is good for all ages (kids,

children, teens, and adults). We tested this program locally and the results are fantastic. This unique new program brings the color, personalization, and thrill to event attendees just like all our other house-designed programs.

3. New 3D printing program (100 people/session)

This program is called "3D Printing Exploration Special". The participants will 3D print a flat bottom domed disk with their initial indented on it. They will personalize the material color and make a unique initial disk that is a great accessory as a necklace, keychain, etc. The personalization process makes each initial disk unusual and one of kind. No doubt this is a great 3D printing event for a large group.

4. 2020 Summer 3D printing national tour

We have repeat customers and new customers too!

5. February vacation 3D printing camp is back

Due to our commitment to summer tour 2020, we will not run summer camps this year. Instead, we're bringing back February vacation camps for people to try our house-developed unique 3D printing programs.

6. New conferences

We aim to bring the 3D printing fun and excitement to more people in new dimensions.

7. New 3D printing book kit

People always need new projects to work on. We can be very helpful with that. Our new book kit is titled "To Fantasy - 3D Modeling with Tinkercad for 3D Printing"

8. Making more time for custom 3D printing

People love our 3D printing quality, and we care about our clients' projects. In 2020, we will take more custom 3D printing work and try our best to help our clients succeed.

**3D Printing Book Kits
Released in 2018, 2019**

Are you looking for fun 3D printing projects for this week, next month or this year? Just get our 3D printing book kits!

Both are available on Amazon prime. Don't wait! Get it now! The quantity is limited. Here is the link:

<https://amzn.to/2DjiF3Y>

Additionally, you can buy directly from our website. If you buy directly us, we'll send you a complementary 3D printed gift. It will be shipped to you via a separate mailer. Here is the link:
