#### Run a 3D Printing Program Yourself

Already have a 3D printer and thinking about hosting a 3D printing program yourself? Not sure where to start? No worries— we've got your back! Toysinbox 3D Printing will be hosting a **How to run your own 3D Printing Make-Your-Name-Keychain program** webinar in August! We will demo this program and explain the various aspects—from the presentation to managing waiting times—necessary for a fun and successful 3D printing program at your institution, **hosted by yourself**. We will share tips and recommendations we've picked up over our past eight years of 3D printing event-hosting experience. By the end, you will be confident and ready to host your own events. More details and registration information coming next month!

Want to see how we host 3D printing events? Our 3D Printing Exploration and 3D Print Your Name Keychain programs have been popular and enjoyed by audiences from the east coast to the west coast. We have formally resumed our in-person hosting and are now accepting in-person program bookings for the libraries/schools for Fall 2023!

#### STL Pattern Free Share for July

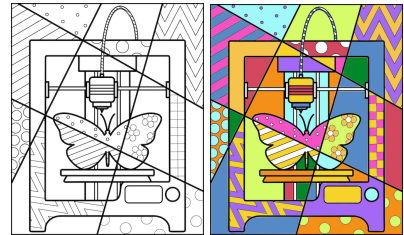

[3D printing meets embroidery] 3-pattern geyser package is almost done! It includes three different terrain patterns inspired by geysers. We will share the first of the three STLs via our Facebook @Toysinbox3DPrinting starting July 7th for 24 hours. How to participate: Follow or like us on Facebook (if you already did, like this post), and email info@toysinbox.com for the geyser patterns so we can email back with the STL.
