Celebrate With Us!
Unique Birthday Party on Earth

We are excited to tell you all that in-person 3D printing birthday party is restarted after being in pause mode for three years. Recently, we hosted a birthday party for a group of thirteen elementary school girls. They asked terrific questions, enjoyed 3D designing their name keychain, were excited to pick the filaments of their favorite colors, and 3D printed their awesome name keychain in two-colors to take home. What a fabulous and unique party on earth!

3D printing world is so wonderful! There are so many things to see and so many things to do. Children will enjoy the hands-on 3D printing activities and take home 3D printed fun things.

What to celebrate with us with your next birthday party and want to know

more? We are happy to assist. Right now, for 3D printing birthday party, we have three offerings.
