Toysinbox 3D Printing Show (1)

Hello everyone! We are excited to tell you all that Toysinbox 3D Printing Show is now officially coming on December 16th, 2023! Come and join us! Try unique hands-on 3D printing fun, get overjoyed, and take home your new inspiration and what you make!

This show is the first in-person show after we paused it for three years. In 2015, We started our first 3D printing show as a unique offering for the holiday season and as a way for us to bring festive 3D printing joy to the local general public. We did not expect that our small 3D printing show would have a large audience. However, it turned out that we were wrong. So, we continued to run the show from 2015 until 2020 for the Holiday Season.

While the live in-person show was paused from 2020 to 2022 due to the pandemic, we took the lapsed time to reflect and think about ways to improve the 3D Printing Show. And the reflection is fruitful. If you attended our 3D Printing Show in the past, you're welcome to come and see our new show ideas and try new hands-on activities. If it's your first time hearing about our 3D Printing Show, just hurry! You won't find anything like this elsewhere.

Toysinbox 3D Printing Show is fun and educational. We integrate 3D printing technology into learning in an exciting way by emphasizing hands-on experience. These activities will provide you a one-of-a-kind deep experience to enjoy on the spot and to reflect when you return home. The live presentation offers a grand view of the 3D printing technology and the chance to interact with our 3D printing associates. The exhibits will

teleport you to the fantastic world of 3D printing. We will elaborate more about this next month. Just stay tuned.

A limited number of tickets for individual booking will be available on Eventbrite shortly– get yours today before they sell out! We will add more time slots for each available date in 2023 if our schedule permits.
