

"It is about more than selling Toys."

Toys In Box Times Wellesley MA

VOL.II...No.4

APRIL, 2015

ZERO DOLLARS

HELLO, I'M TOYSINBOX TIMES!

I am an Austin-originated kids newspaper sold at Toysinbox 3D Printing Store, Toysinbox.com and Toysinbox events at zero dollars. I absolutely adore toys, crafts, books, fun activities, and KIDS ENTREPRENEURSHIP!

My passion is broadcasting everything about Toysinbox and kids business adventures. Each month, I will report exciting news at Toysinbox, interesting things to do for kids, and enlightening kids business adventures. So be sure to read the fabulous articles in this issue.

Toys Trade Counter Open!

On May 23rd, the Toysinbox 3D Printing Toys Trade Counter will open from 11am to 1pm in our store located at 1 Cameron Street, Wellesley. Children can bring up to 5 toys to trade for the toys on the shelf or save the points earned for future trades. Their points are recorded on a notecard that we will keep. The more they can write about their toys, the more points they can earn towards their trade as an extra bonus! Use points to trade for the treasures displayed on the Trade Counter Shelf that other people have traded in and some of our 3D prints from our store.

FUN THINGS TO DO (12)

By J.Y.

Make(magazine)

Make(magazine) is a wonderful magazine for the DIY tinker or inventor. Make(magazine) shows the latest technological trends and a few DIY Arduino/ Raspberry Pi related projects. Make(magazine) explains how different variants of electronic interest such as drones are compared with each other. Make(magazine) shows a certain electronics PROS & CONS. In some pages, there is a description of an interesting electronic someone made such as a real time weather stimulator and a brief sentence or two on how the person made it. Other times, amazing art works are shown instead along with the authors' description of the art works.

Generally, Make(magazine) is a great magazine for everyone to read, Tinkerer or no Tinkerer, young and old. The only problem is that it is a bimonthly magazine so you have to wait a really long time before you get your next one.

GREAT NEWS

By TOYSINBOX PEOPLE.

Cambridge Science Festival

On April 18th, Toysinbox 3D Printing was invited to participate in the Carnival & Robot Zoo of the Cambridge Science Festival. The event was great and exciting! Picture 1 shows that the visitors flooded in when the event started. Almost all of the participants were hungry for science. Picture 2 shows that at our booth, people waited in a very long line to try the 3D printers we brought in. How wonderful!
