ZERO DOLLARS

HELLO, I'M TOYSINBOX TIMES!

I am an Austin-originated kids newspaper sold at Toysinbox 3D Printing Store, Toysinbox.com and Toysinbox events at zero dollars. I absolutely adore toys, crafts, books, fun activities, and KIDS ENTREPRENEURSHIP!

My passion is broadcasting everything about Toysinbox and kids business adventures. Each month, I will report exciting news at Toysinbox, interesting things to do for kids, and enlightening kids business adventures. So be sure to read the fabulous articles in this issue.

FUN THINGS TO DO (15)

See the World: Hello-Wonders Merry-Go-Round

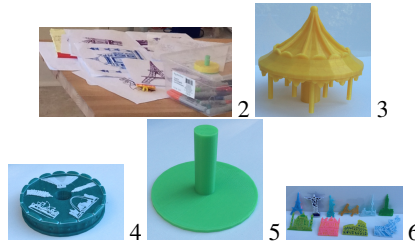

1

There are so many wonders in the world! Pick the wonders you like and see them on this merry-go-round. We designed it from scratch in Tinkercad and 3D printed it on Replicator 2. The 2D to 3D software we used is Inkscape. All of the pictures for the 2D to 3D models were hand-drawn by us (see pic 2). It has four parts: roof (pic 3), middle piece with 5 wonders (pic 4), base (pic 5) and 10 wonders (pic 6).

All the 3D models and detailed 3D printing instructions are free for download from thingiverse.com (<http://www.thingiverse.com/thing:962264>).

The assembly video is on Youtube.com (<http://youtu.be/FdNLxLkFta8>). This merry-go-round can spin and is a great fun toy to play with. You can customize it by adding different wonders or animals. There are endless possibilities with this merry-go-round.

GREAT NEWS

By TOYSINBOX PEOPLE

3D-Photo Booth: Full-Body 3D Scan

Picture 1 and 2 show the full-body 3D scan prints from our photo booth. Now we have the best wedding cake topper (pic 2) on earth! The couple are happy with the cake topper and will send us the cake pictures! How wonderful!

End of Summer Sales Event

Head & shoulder 3D scan and 3D print: \$25; Full body scan & print: \$35; 3D printed Halloween party horned headband designed by us: \$30. Unique and cool. Impress your friends! Time: 08/14/2015 - 08/18/2015

June & July Summer Camps Review

Our June and July 3D printing & 3D design summer campers were fantastic! Some tweens and teens committed more than 60 hours and finished more than 20 design projects. At the end of our camps, their skills were very solid. It is a great fun to see them exploring eagerly in this amazing 3D printing world and accomplishing so much!
